

BFOSC-D48 Domed Fiber Optic Splice Closure Spec Sheet

1. Product Information:

The closure is designed with a split end plate for mid access cable applications and includes an integrated slack storage basket, hinged splice tray and an easy to install no special tool sealing system. Constructed with stainless steel hardware, UV stabilized Xenoy (hardened plastic), pass a 20 ft. water immersion test and meet or exceed 150lb. pull out for cables. Each case can be mounted in a variety of ways: cabinet, aerial, wall, above ground, aerial tap mount bracket and pedestal.
